CITATION LONGITUDE

The CESSNA CITATION LONGITUDE aircraft is the flagship in the *Citation* fleet. No other business jet in the super-midsize class gives you more range, greater payload or higher cruise speed at a lower direct operating cost.

- Engineered to give you the quietest, most comfortable cabin in its class.
- The spacious cabin and double-club seating afford up to 20 percent more legroom than the competition.
- Designed and built in-house, the seats recline to lay flat and are crafted for smooth mobility as you work or relax in flight.
- The sizeable wet galley enhances cabin service with plenty of room for food preparation.
- The large, walk-in baggage compartment has a storage capability of up to 1,000 pounds and is accessible throughout the entire flight without any restrictions.
- Arrive refreshed thanks to a low cabin altitude that does not exceed 4,950 feet at FL410.
