

PRO OWNERSHIP PILOT SOLUTIONS

# FOR A SMOOTH TAKEOFF

# CREW OPTIONS TO FIT YOUR NEEDS

At Textron Aviation, we know how important it is that you get the most out of your investment. From the moment of delivery, our ProOwnership® program supplies you with factory pilots and an OEM-backed support network to ensure a smooth entry into service. Enjoy peace of mind and stress-free missions, and take advantage of experienced assistance on board your aircraft. **NO ONE KNOWS YOUR AIRCRAFT LIKE WE DO.**

---

## **PILOT SERVICES**

Whether you're an operator needing supplemental crew or an owner-operator seeking a mentor pilot, factory pilots are ready.

---

## **MENTORSHIP**

Our mentor pilots are an important asset when it comes to helping you as an owner, operator or professional flight crew grow accustomed to your new aircraft. They can also assist transitioning pilots with the completion of any supervised operating experience that might be required.

---

## **CREW GAP COVERAGE**

If your pilots are not ready or available to fly your new aircraft, our pilots can fill the crew gap during the post-delivery transition period.
