

PROMAINTENANCE

MORE TIME FOR WHAT MATTERS MOST

ProMAINTENANCE

MAINTENANCE MANAGEMENT FROM THOSE WHO BUILT YOUR AIRCRAFT

Every maintenance event comes with logistics to work out — contacting the right people, ordering parts and juggling paperwork. We believe your time is better spent with your family or running your business.

Why not let Textron Aviation take care of the details?

ProMAINTENANCE SOLUTIONS

Our ProMaintenance program lifts the burden so you may enjoy some peace of mind by leveraging OEM expertise to keep your world moving. Textron Aviation is there, in the details, from start to finish.

- Complete management of scheduled, unscheduled and aircraft-on-ground (AOG) maintenance
- Coordination of approved modifications and repairs
- Planning for airworthiness directives (AD), service bulletins (SB) and inspection compliance
- Single point of contact for all inquiries related to maintenance

HOW IT WORKS

The ProMaintenance program partners you with a maintenance specialist who gains a personal understanding of your operation, building on their technical knowledge of your aircraft. Our program is your resource for understanding your due maintenance, scheduling maintenance, planning repairs or modifications, meeting compliance with airworthiness directives or service bulletins, and more.

OEM ASSURANCE

Through ProMaintenance, we leverage factory-direct service that does more than prepare your aircraft for the next takeoff. It also ensures long-lasting dependability and protects your investment. ProMaintenance is just one aspect of the ProOwnership® portfolio — the customized and seamless OEM solution driven to enhance your operational experience. Managing aircraft is what we do every day.
